📁 EXPERIENCES

noon Software Developer Engineer 🔗	Jan 2026 – Present Dubai, UAE
DX FutureTech AI Engineer 🔗 - Lead AI development across DXFT for real-estate & government clients (Ministry of Finance, Sobha Realty) - Refactored DocuzApp, enabling AI engines to standardize & automate Salesforce document workflows. - Built real-time conversational AI agents for outbound calling, lead qualification, and CRM data capture.	Oct 2025 – Jan 2026 Dubai, UAE
CarbonFlow AI AI Backend Engineer 🔗 - Partnered directly with the CEO to design a centralized SaaS platform for corporate carbon compliance. - Built the core backend platform centralizing ESG reporting through emissions dashboards and compliancy. - Built an AI-powered ESG document parser for emission factor extraction to feed into live emission dashboards.	Oct 2025 – Jan 2026 Dubai, UAE
Aistra Labs Inc. GenAI Backend SWE Intern 🔗 - Developed two LLM-powered chatbots (Unit Planner, IEP Assistant) to cut teachers' workload by ~20%. - Built multilingual support in 40+ languages via translation pipelines for LLM-generated content. - Engineered document export features and authored MarkGDoc, cutting document creation time by 70%. - Refactored backend systems to reduce code duplication and speed up prototyping with reusable modules.	Jun 2024 – Aug 2024 Dubai, UAE

🎓 EDUCATION

Bachelors of Computer Science, New York University Abu Dhabi - GPA: 3.92 - Summa Cum Laude - Honours Student - Founders Award - Relevant Courses: AI/Machine Learning, Software Engineering, Data Structures, Algorithms, OS, Networks	May 2025 Abu Dhabi, UAE
---	----------------------------

📜 CERTIFICATIONS

AWS Cloud Certified Developer Associate Certification	Aug 2025 – Oct 2025
Natural Language Processing Specialization - Stanford University DeepLearning.AI 🔗	Apr 2025 – May 2025
Machine Learning Specialization - Stanford University DeepLearning.AI 🔗	Feb 2024 – Apr 2024

📁 PROJECTS

Seora: Corrective Multimodal RAG Agent 🔗 Built an AI agent to assess startup decks and investability using multimodal RAG with corrective web search.	Aug 2025
Conversational AI Health Care Assistant 🔗 Built a conversational healthcare AI agent web-app using UltraVox API to support users with medical queries.	May 2025
Machine Translation Transformer 🔗 Created a traditional transformer from scratch to train on machine translation from English to Italian.	Jan 2025 – Feb 2025
Study on Creativity in Education and PISA Performance 🔗 Conducted a study of school creativity resources and PISA outcomes across GDP tiers and COVID lockdowns.	Sep 2024 – Dec 2024
PersonaVerse 🔗 Developed a Docker container web-app for conversing with LLMs personality chatbots using Langchain.	Oct 2023 – Dec 2023
Elemental Mastery 🔗 Designed an interactive Computer Vision ML5 hand tracking system to control self-built particle systems.	Oct 2023 – Dec 2023
AuraVoice 🔗 Developed a docker container web-app with a ML Deep CNN Model to convert voice to MIDI compositions.	Oct 2023 – Nov 2023

🔬 RESEARCH

EEG-based Neuroadaptive System for Emotion Regulation using Deep Learning in Mixed Reality Achieved 79.2% accuracy of emotion detection from our transformer-CNN model. - Built an interface to connect a 7 electrode wireless EEG device with our model and a Unity MR environment. Optimized 6+ hyperparameters for fine tuning or model accuracies.	Sep 2024 – May 2025 Abu Dhabi
vER: Virtual Human Companionship for Patients in Preoperative Care 🔗 - Built AI-driven virtual agents in Unity VR to help pre-operative patients reduce their stress levels. - VR companionship reduced mean heart rate by ~4 bpm and 65% reported higher comfort and engagement.	Sep 2024 – May 2025 Abu Dhabi

🧠 SKILLS

Python, C++, C, C# | PyTorch, TensorFlow | CI/CD, SWE Pipeline | Databases (MongoDB, MySQL, Postgres) | LLMs (Langchain, Ollama) | HuggingFace | Flask, FastAPI | AWS, GCP | Docker, Kubernetes | Github | Web Development | VS Code, Cursor | Unity | Maya 3D | Jira, Confluence | Digital Ocean | PyPi | Arduino | Microsoft Office
