EXPERIENCES

Handshake AI Inc. LLM Model Validation Expert Fellowship 	Aug 2025 – Oct 2025 Dubai, UAE
- Partnered with leading AI research labs to evaluate and train cutting-edge LLMs. - Assessed 1,000+ QA LLM outputs based on reasoning, summarization, and dialogue benchmarks. - Reviewed 100+ GenAI images to identify visual inconsistencies and enhance GenAI models. - Delivered evaluations reports with cross-functional teams, directly influencing model retraining.	
New York University Abu Dhabi Laboratory Assistant 	Sep 2024 – Dec 2024 Abu Dhabi, UAE
- Trained and assisted 50+ students and staff in 3D modeling, printing, soldering and laser cutting. - Built an automated database to track material usage, improving inventory management by ~40%. Provided hands-on guidance for physical computing and technical projects with debugging and prototypes.	
Aistra Labs Inc. GenAI Backend SWE Intern 	Jun 2024 – Aug 2024 Dubai, UAE
- Developed two LLM-powered chatbots (Unit Planner, IEP Assistant) to cut teachers' workload by ~20%. - Built multilingual support in 40+ languages via translation pipelines for LLM-generated content. - Engineered document export features and authored MarkGDoc, cutting document creation time by 70%. - Refactored backend systems to reduce code duplication and speed up prototyping with reusable modules.	
New York University Abu Dhabi Equipment Data Management Assistant 	Jan 2023 – May 2023 Abu Dhabi, UAE
- Managed booking, tracking, and upkeep of 300+ film, audio, and media devices (cameras, mics, lighting, VR). Oversaw the inventory database end-to-end-monitoring, updating, adding items, and tracking repairs. - Performed equipment fixes (soldering, rewiring, diagnostics) to minimize downtime and extend gear life. Streamlined check-in/out workflows and ensured gear readiness, improving turnaround and accountability.	

EDUCATION

Bachelors of Computer Science, New York University Abu Dhabi	May 2025 Abu Dhabi, UAE
- GPA: 3.92 - Summa Cum Laude - Honours Student - Founders Award - Relevant Courses: AI/Machine/Deep Learning, Software Engineering, Data Structures, Algorithms, OS, Networks	

CERTIFICATIONS

AWS Certified Developer Associate 2025 DVA-C02	Present
Natural Language Processing Specialization - Stanford University DeepLearning.AI 	Apr 2025 – May 2025
Machine Learning Specialization - Stanford University DeepLearning.AI 	Feb 2024 – Apr 2024

PROJECTS

Seora: Corrective Multimodal RAG Agent 	Aug 2025
Built an AI agent to assess startup decks and investability using multimodal RAG with corrective web search.	
Conversational AI Health Care Assistant 	May 2025
Built a conversational healthcare AI agent web-app using UltraVox API to support users with medical queries.	
Machine Translation Transformer 	Jan 2025 – Feb 2025
Created a traditional transformer from scratch to train on machine translation from English to Italian.	
Study on Creativity in Education and PISA Performance 	Sep 2024 – Dec 2024
Conducted a study of school creativity resources and PISA outcomes across GDP tiers and COVID lockdowns.	
PersonaVerse 	Oct 2023 – Dec 2023
Developed a Docker container web-app for conversing with LLMs personality chatbots using Langchain.	
Elemental Mastery 	Oct 2023 – Dec 2023
Designed an interactive Computer Vision ML5 hand tracking system to control self-built particle systems.	
AuraVoice 	Oct 2023 – Nov 2023
Developed a docker container web-app with a ML Deep CNN Model to convert voice to MIDI compositions.	

RESEARCH

EEG-based Neuroadaptive System for Emotion Regulation using Deep Learning in Mixed Reality	Sep 2024 – May 2025 Abu Dhabi
Achieved 79.2% accuracy of emotion detection from our transformer-CNN model. - Built an interface to connect a 7 electrode wireless EEG device with our model and a Unity MR environment. Optimized 6+ hyperparameters for fine tuning or model accuracies.	
vER: Virtual Human Companionship for Patients in Preoperative Care 	Sep 2024 – May 2025 Abu Dhabi
- Built AI-driven virtual agents in Unity VR to help pre-operative patients reduce their stress levels. - VR companionship reduced mean heart rate by ~4 bpm and 65% reported higher comfort and engagement.	

SKILLS

Python, C++, C, C# | PyTorch, TensorFlow | CI/CD, SWE Pipeline | Databases (MongoDB, MySQL) | LLMs (Langchain) |
HuggingFace (Datasets, Models) | Flask, FastAPI | AWS | Docker | Github | Web Development (HTML, CSS, JS) |
Visual Studio Code | Unity | Maya 3D | p5js, ml5 | Jira, Confluence | Digital Ocean | PyPi | Arduino | Microsoft Office
